Vanja Vasiljevic

Phone: +38765926389   **Email: vanjavasiljevic89@gmail.com**

Adress: Gunduliceva 7, Banja Luka, B&H

Experience

- HTML
- CSS / SCSS
- Bootstrap
- Vanilla JS
- JQuery
- GIT
- React introduction
- Adobe XD

References

Since I am mostly self taught developer, , so I will display code references and explain their usages.

- https://github.com/vaske234/Game - Here I've built a small game application when I was practicing JS.

- https://github.com/vaske234/Mint-Sass - Here I've built a small app using reusable partial components to reuse them on multiple pages.

- https://github.com/vaske234/Jobs-JavaScript - Here I was practicing the concepts of JSON and how to use data inside JSON data structure.

- https://github.com/vaske234/Music-app - On this project I was practicing scss more advanced topics, like mixins and variables.

About me

My name is Vanja Vasiljevic, I am 27 years old and I live in Banja Luka.I've started programming about 2 years ago and so far I've finished two online courses for web development in which I've received additional knowledge in this field. I've been working in groups and built several web pages.

So far my experience has grown from basic web technologies like HTML, CSS to more advanced things like Bootstrap, SAAS as well as some knowledge in JQuery and JavaScript. Right now, I am looking for a job as a intern or junior developer to be able to further improve my skills as a developer. I am very eager to learn new technologies and I am a team player. Hope to hear from you! I speak 2 languages: English and Serbian.
